Bought a Single Family home in 2024 in Beaverton

At the beginning of 2024, we got the sudden news that we needed to move. We didn't even think of buying at the time as first time home buyers, we were afraid of the aspect of buying a home. Li Huong was introduced to us from a relative. She helped us navigate the maze of home buying paperwork. Not only that, she also help steer us away from houses with potential financial pitfall. She understands very well what we need - maybe even more than ourselves. She also helped us pick out a good house very quickly. Li Huong understands housing negotiation very well. She also helped us get a good deal even in the current chaotic seller-centric market. I highly recommend Li Huong!

Bought a Single Family home in 2024 in Aloha

Throughout our home buying process, Ms. Huong was incredibly communicative. She promptly answered calls and emails, keeping us informed about every development. Her ability to clearly explain complex contract details was particularly helpful. In addition, Ms. Huong managed to lower the asking price significantly, saving us thousands. We really appreciate her help on our first home buying process and definitely will recommend her to any of our friends and family!
